

OUTLINE:

BEHAVIORAL HEALTH ASSESSMENT

QUANTUM HEALTH CONNECT

Our mission is to provide telehealth solutions that transform healthcare delivery while advancing the integration of medical & behavioral health care.

Behavioral Health Assessment Screening Tool

- **Helping physicians, hospitals and health systems integrate behavioral health and medical care**
- **Providing physicians and providers with an effective tool to screen for behavioral health issues**

Behavioral health assessment screening tool provided by Quantum Health Connect can be administered during medical/primary care/ED visits along with physical work-up.

- Portal-based, easy to administer:
 - ⇒ patient takes about 5-7 minutes answering 27 questions on tablet/computer
 - ⇒ patients can do survey in waiting room or prior to visit
- HIPAA compliant
- Screens for seven behavioral health conditions including substance misuse and suicide –
 - ⇒ depression, anxiety disorders, bipolar, suicidality, substance misuse, PTSD/trauma, functional impairment
 - ⇒ more comprehensive screen than most other assessments
- Physician receives results in real time before or during visit in robust yet concise report
- Data can be incorporated directly into EMR
- Data is tracked to monitor patient progress over time
- A revenue generator for hospitals/health systems/clinics/practices. The assessment is covered by most payors (CPT 96146, 96136).
- No purchases, licensing or start-up cost for hospital/practice
- QHC facilitates training and incorporation into hospital/practice processes and workflow

If the patient needs further behavioral health evaluation and care, QHC can help by providing access to psychiatrists and other behavioral health practitioners via telehealth.
